PM: Games Night	PM: Campfire & Spotlighting	PM: Stargazing	PM: Nocturnal Scavenger Hunt	PM: Games Night	PM: Campfire & Spotlighting	No Session

PLEASE NOTE:

- + Ages: 5-12 years (Under-5s welcome with a Parent/Guardian). Activities are weather-dependent. On rainy days, children enjoy creative indoor programs like Eco Warriors workshops, science experiments and games.
- + ** Please advise us of any allergies or dietary requirements in advance. **
- + Spaces fill quickly during holiday periods – secure your child's place in advance!

BOOK NOW!

or Book directly with our
friendly Reception team.

MORNING SESSION		AFTERNOON SESSION	
8:30am - 12pm (Morning Tea included) \$25 (\$20 Pre-arrival price)		5:30pm - 8pm (Dinner included) \$35 (\$30 Pre-arrival price)	
Python Rock Walk	Set out on an easy 5km rainforest adventure with our Rangers. Along the way, Children will discover Satin Bowerbirds, Trapdoor Spiders and towering Booyong trees — learning how each plays a vital role in the ecosystem. At the lookout, sweeping valley views bring the rainforest's grandeur to life.	Bushwalk & Campfire	Kids trek to a hidden rainforest spot and gather around a campfire to cook their own morning tea. Along the way, Rangers share stories of survival, local ecology and the traditions of the forest — teaching children how humans and nature thrive together.
Mission: Survive!	Budding explorers design and build their very own bush survival kit using simple materials. Guided by our Rangers, they'll test out how these tools can be used in real situations - building confidence, problem-solving skills, and a deeper respect for nature's resources.	Games Night	Teamwork, laughter and a little friendly competition come together in a series of fun challenges that test coordination, creativity and problem-solving. A great way for kids to bond and build confidence.
Creeks & Streams	Children wade into the cool rainforest creeks to discover frogs, tadpoles, crayfish and tiny eels. As they explore these magical habitats, they'll learn why clean water is the lifeblood of the forest and why every drop is precious.	Nocturnal Scavenger Hunt	Armed with torches, kids step into the dark rainforest to search for hidden treasures of the night. With senses sharpened, they'll experience the forest in a whole new way — spotting nocturnal creatures and discovering how the rainforest comes alive after dark.
Wacky Chemistry	Science becomes an adventure! Kids unleash their inner scientist with exciting, safe experiments using everyday household items. From fizzy reactions to colourful surprises, children see how chemistry connects with the natural world around them.	Stargazing	Eyes to the sky with Jona! Exploring with a telescope and star charts, Children journey through the southern night sky — spotting constellations and planets while creating their own mini solar system to take home.
Light Painting	Turn the night into your canvas as colours burst into life in a magical display of light and creativity. Kids will craft their own glowing masterpiece to take home and treasure.	Feathers & Flight	From camouflage to song, children discover the secrets of our rainforest's incredible birdlife. With Ranger guidance, they'll spot vibrant species, listen to their calls, and learn how feathers and flight help birds survive in this unique ecosystem.
Eco Warriors	Become an Eco Warrior! Discover the power of Rethink, Reduce, Reuse and Recycle as kids transform everyday items into creative treasures to take home. Along the way, they'll explore how we can all protect the rainforest and why these ecosystems are so extraordinary. For an extra adventure, join a behind-the-scenes tour to learn about our water and recycling systems — and meet the bees who keep the forest buzzing.	Campfire & Spotlighting	Children gather around a glowing campfire to toast marshmallows and share stories before venturing into the night with torches. With the help of Rangers, they'll spotlight nocturnal wildlife, learning how animals adapt to life in the dark.
